HOW TO ORDER—TERMS.

WRITE YOUR ORDERS

as follows, to insure promptness and to avoid mistakes. Write plainly your Name, Town or City, County and State. State if goods are to be forwarded by Express, Parcel Post or Freight. Bring the items of your order together in your letter or on the order sheet we supply for the purpose, giving each article a separate line.

State just what you want, giving name, number, size and price of each article. *Do not cut illustrations from this book*; you may want to see them later, and accuracy can be secured by giving name, number, size and price of the article without sending illustrations of them to us, for we have duplicates.

PARCEL POST

Parcels weighing four ounces or less are mailable at the rate of one cent for each ounce or fraction of an ounce, regardless of distance. Parcels weighing more than four ounces up to fifty pounds are mailable at the pound rates applying to the zone in which you reside; a fraction of a pound being considered a full pound.

Packages sent by parcel post are only safe when insured. When you order goods sent by parcel post, remit the full price of same, including the necessary postage at your zone rate, and add fee for insuring if you wish us to do so.

GLASSWARE, Liquids, Poisons, Dyes, Pastes, etc., should always go by express to insure safe arrival.

PARCEL POST INSURANCE RATES

$2\frac{1}{2}$ c will insure against loss on any parcel of any value up to \$10.00; 5c from \$11.00 to \$25.00; $7\frac{1}{2}$ c from \$26.00 to \$37.50; 10c from \$38.50 to \$50.00. If you wish package insured, say so on your order and include the price according to the valuation of the goods ordered.

EXPRESS

If you order goods to go by Express C. O. D., send enough money to cover Express charges coming and going, for we would have to pay them if for any reason you were unable to accept goods after they were shipped.

Orders for goods by Express amounting to less than \$3.00 should be accompanied by full amount of cash.

ON C. O. D. ORDERS AMOUNTING TO \$3.00 OR MORE

WE PAY THE CHARGES
FOR RETURNING MONEY

Express charges on furniture or heavy boxes are high, and such goods should always be ordered by freight unless urgency justifies heavy charges, in which case parties should accompany their order with a remittance in full or sufficient to fully cover Express charges both ways.

FREIGHT

If goods weigh fifty pounds or more, it is usually cheaper to forward them by freight. We use our best judgment in routing shipments unless parties instruct how to ship.

We deliver all goods F. O. B. cars St. Louis, and make no charge for boxing or cartage.

Our packing is done by experienced men, and every shipment should reach destination in good order.

SAFE DELIVERY GUARANTEED

We will replace any goods broken or lost in transit, provided you furnish us with the freight or express bill with breakage or shortage noted thereon by the railroad or express company's agent in your city.

Safe delivery by Parcel Post will not be guaranteed unless same is insured. Cost for insuring—(see Parcel Post Insurance Rates above).

FURNITURE

When ordering Chairs or Furniture always state what kind of wood is wanted, and how it is to be finished; also inform us color of plush or leather that you desire used in upholstering. We recommend Dark Green or Black Leather as being the most serviceable and less likely to fade. Maroon or Tan cannot be guaranteed to hold their color.

The Furniture we carry in stock ready for shipment is made of Quarter-sawn White Oak, golden finish. We can furnish it made of other woods and with different finishes when desired, and will be pleased to quote prices on application.

TERMS

Parties who are not known to us should accompany their orders with sufficient cash to insure acceptance of their goods when shipped. This is especially required if Decorated Shaving Mugs are ordered, for Mugs with names on them are of no value to us if returned.

Remittances should be made by Registered Letter, Post Office Money Order, Express Money Order or Bank Draft made payable to us. Postage Stamps will be accepted for orders under \$1.00. Do not send personal checks, as the banks are making heavy charges for handling them.

Discounts (see also above under Express) are only for cash. On Outfits we quote special prices for cash.

When ordering Chairs or Furniture, a deposit of at least one-fourth the amount should accompany order.

On all articles made to order we require part payment before work is commenced.

The prices for Decorated Shaving Mugs are for designs as represented. If changes are ordered, extra charges will have to be made.

Installment Plan. We will sell Chairs and Furniture on the installment plan. Write for particulars.

ACKNOWLEDGMENTS

We acknowledge the receipt of every order by postal card or letter; hence, if you do not hear from us within a reasonable time, write again. Your first letter may have been lost in the mail.

This Catalog supersedes all previous issues.

of
Action

THE KOKEN HYDRAULIC MECHANISM

KSIMPLICITY OF MECHANISM

Means a mechanism with the fewest possible parts to wear, consistent with highest efficiency, thus insuring longer life, smoother action and a simple mechanism to understand, take care of and operate. A simple design demands nothing more than the necessities for the performance of its various functions perfectly. The KOKEN MECHANISM is as near perfection in this respect as it is possible to make it.

KSTRENGTH OF CONSTRUCTION

Means a mechanism of correct design, with proper selection and proportioning of materials to give strength to the various parts where needed, without indiscriminate addition of unnecessary weight. Special iron of best quality is better for some purposes than steel, whereas malleable iron, steel and brass lend strength in other directions. The proper selection and proportioning of materials is found in the KOKEN MECHANISM.

KEXACTNESS OF WORKMANSHIP

Means a mechanism with snug-fitting bearings, insuring its operating smoothly and being positive in its action. It also means careful attention to the detail of construction, a strict adherence to design by skilled mechanics, together with the careful use of proper tools, giving that nicety of action that care in this direction alone can contribute toward a perfect working mechanism, such as the KOKEN MECHANISM is.

KPRECISION OF ACTION

Means the resultant from simplicity of design, strength of construction, exactness of workmanship and spells efficiency. This is possible only by reason of the accuracy with which a simple design is fitted together and the perfect co-relation of its various functions. These axioms are embodied in the KOKEN MECHANISM, making its action a precise, positive and extremely easy operation, all lost motion being eliminated.

CONGRESS HYDRAULIC CHAIR

*Revolving and Reclining
Raising and Lowering
IRON PORCELAIN ENAMELED*

W
S. V. LEWIS
A. C. KAHLER

PATENTED OCTOBER 22, 1895; DECEMBER 3, 1901; MARCH 1, 1910; APRIL 12, 1910; MAY 17, 1910; DECEMBER 6, 1910; SEPTEMBER 24, 1912;
MAY 26, 1914; DESIGN PATENTED APRIL 13, 1915

The Barber Chair Par Excellence.—The richness and massiveness of its design, the exceeding gracefulness of its lines, make it an unusually substantial and attractive pattern. NOTE.—The frame of the back is made of iron, porcelain enameled, an entirely new feature in barber chair construction—first introduced by us—as is also the pedestal base, which is made in one piece. The seat frame, hand lever and front ends of arms are also made of iron, porcelain enameled. The step, foot-rest plates and outer rim of base, also the strip around the back, are solid German silver, polished. All other exposed metal parts are heavily nickel-plated. It is fitted with our latest patented improvements, including sanitary paper-holding, spring-cushion head-rest. (Beware of imitations and infringements.)

Price, as shown, upholstered with best grain leather, any color.....	\$150.00
Price, with full length porcelain arms	150.00
Price, with marble or heavy white glass arms on porcelain-enameled blocks, extra.....	5.00
Price, mahogany summer seat with open cane weaving, extra.....	10.50

MAY 26, 1914. DESIGN PATENTED MAY 13, 1913

A high type of the chair-maker's art. Many leading hotels have purchased them. Unusual in its style of construction, attractive in its design. NOTE—The frame of the back is made of iron, porcelain enameled, an entirely new feature in barber chair construction — first introduced by us — as is also the pedestal base, which is made in one piece. The seat frame, the hand lever and the arms are also made of iron, porcelain enameled. The step, the foot-rest plates, the outer rim of base and the strip around the back are solid German silver, polished. All other exposed metal parts are heavily nickel plated. It is fitted with our latest patented improvements, including our patented sanitary, paper-holding, spring-cushion head rest. (Beware of imitations and infringements.)

MAY 26, 1914. DESIGN PATENTED MAY 13, 1913.

This pattern presents that plain, rich, substantial appearance that is greatly admired and has made it very popular. NOTE—That the frame of the back is made of iron, porcelain enameled, a new feature in barber chair construction—first introduced by us. The pedestal base, made in one piece, the seat frame and the arms are also made of iron, porcelain enameled. The step, foot-rest plates and outer rim of base are solid cast brass, polished. All other exposed metal parts are heavily nickel plated. It is fitted with our latest patented improvements, including our patented sanitary, paper-holding, spring-cushion head rest. PATENTED OCTOBER 22, 1895; DECEMBER 3, 1901; APRIL 12, 1910; MAY 17, 1910; SEPTEMBER 24, 1912
DESIGN PATENTED MAY 3, 1910

A neat, attractive and very popular pattern; often approached but never paralleled. Strong and durable. The seat frame, pedestal drum and plate and hand-holds are made of iron, porcelain enameled. The spider which supports the seat frame, and the side bars which support the apron and footboard, are made of malleable iron. The step, the foot-rest plates and the outer rim of base are solid cast brass, polished. All other exposed metal parts are heavily nickel plated. It is fitted with our latest patented improvements, including push pin plate for head rest. (Beware of imitations and infringements.)

No. 10. Folding Barber Chair

A N Emergency Chair at a moderate price.

C, Especially built to supply the demand for a low priced chair which can be quickly put into commission during fairs, carnivals and other seasons of crowds when an extra chair is desirable.

C, Pays for itself first week.

C, Can be folded up and stored in little space until again needed.

C, Made of oak, golden finish, upholstered with reinforced leather, guaranteed to wear as well as genuine leather and looks better.

Price \$15.00

No. 15. Koken's Army Barbers Folding Field Chair

EXTRME Strength, compactness and durability of construction and correctness of design mark Koken's Army Barbers' Folding Field and Camp Chair as the most practical chair for field work.

C, The frame is of three years' air-seasoned, extra heavy oak; is chemically treated and guaranteed not to warp, crack nor split.

C, It has a WATER-PROOF finish—not varnish.

C, Folds so compactly that it takes but little space beneath the wagon bows; or it may be lashed to the side of the wagon, making it easily and conveniently transported.

C, The heaviest white canvas covers the back and seat and is so fastened that it cannot pull out or tear.

C, The back, foot and head rest are comfortably upholstered.

C, Built to stand the wear of field work and transportation.

C, Besides being invaluable in the field it is especially useful in any Post Shop as an extra chair at busy times, such as day before Muster or Saturday Inspection.

C, Ten of these chairs were purchased by the Quarter-master of the U. S. Military Prison, Fort Leavenworth, Kansas, for use in that institution.

Price \$16.50

No. 201 Combination Fixture

Made throughout of Italian Marble, which, together with the beautiful inlaid Mosaic that relieves the top frames, makes an extremely imposing and decorative fixture—a combination of beauty and usefulness. Note the heavy marble used in the construction of the Settees, which not only gives an appearance of massiveness, but makes for strength and durability. The heavy marble cap gives a rich canopy effect. The marble is firmly secured with brass bolts headed with nickel-plated screws to a wood frame which is furnished in sections. The wood frame is rabbeded for mirrors, leaving no cracks to catch dirt. Beveled French Mirrors over Settees, 42 x 84 inches; in Hat and Coat Rack, 41 x 66 inches. Settees upholstered with springs and covered with first quality grain leather, any color. Hat and Coat Hooks are brass, nickel-plated. It is shipped K. D. and all parts so marked that customer will have no trouble setting it up.

No. 190 Sanitary Mirror Case

A combination of choice figured quarter-sawn white oak, golden finish, colored art glass panels in canopy top and columns (which can be illuminated at night with electric lights) drop lights suspended from the canopy top in front of mirrors, makes of this fixture one of the richest and most elaborate mirror cases ever manufactured. The beveled French mirrors are 44x66 and 28x54 inches. The wainscoting, base, shelves between the lavatories and above them are Italian marble. The porcelain enameled lavatories are 27 inches long, with 15-inch oval basins. They are fitted with nickel-plated shampoo and basin cocks, with indexed china handles, nickel-plated supplies with shutoff valves and wastes with vents, shampoo hose and sprinkler. One of our No. 33 exclusive design Art Towel Urns and one No. 154 Shaving Paper Urn, as shown, furnished with each section.

No. 199 Sanitary Mirror Case

A massive design—of exceptionally striking, and pleasing appearance—the frame is made of quarter-sawn white oak. It carries white glass panels in the canopy top and end columns and richly colored art glass in the upper right and left corners. Drop lights fitted with cut glass globes are suspended from the canopy top in front of mirrors. The large French mirrors are plain, 48x72 inches, firmly held in place by brass angle moulding and connected with beveled French mirrors, 16x48 inches. The 18-inch base is Italian marble, as are also the slabs back of cabinets, towel shelves and cabinet tops. The brackets supporting towel shelves are solid brass, nickel-plated. Yale locks and brass hardware. One of our No. 42 Oakwood, exclusive design Towel Urns and one No. 168 Shaving Paper Urn to match, as shown, furnished with each section.

This Case can be furnished with Lavatories if desired. Prices quoted on application.

No. 198 Sanitary Mirror Case

An artistic design—plain and rich—extremely elegant—has low base with full-view mirrors. The large plain French mirrors, 48x72 inches, are connected by beveled French mirrors, 18x48 inches. The canopy top is supported by octagon columns made of selected quarter-sawn white oak, golden finish, over which are mounted decorative octagon art glass globes, which add much to the beauty of the fixture, especially at night when electric lighted. The 18-inch base, slabs back of cabinets and tool shelves are Italian marble. A feature of this case that will be found very useful and practical is a well equipped sterilizer in each workstand for sterilizing tools. Cabinets are fitted with brass hardware and Yale locks. One No. 17 Towel Urn and one No. 151 Shaving Paper Urn to match, as shown, furnished with each section.

6-Chair Case, length 37 feet 6 inches, height 8 feet 7 $\frac{1}{2}$ inches.....\$1082.00

This Case can be furnished with Lavatories if desired. Prices quoted on application.

No. 200 Sanitary Mirror Case

A Genuine Marble Mirror Case—not imitation.—A superb fixture in which the combination of marble and glass make a beautiful furnishing—it will last a lifetime.—Made throughout of best grade Italian marble. The massive columns are 9 inches in diameter, tapered to $7\frac{1}{2}$ inches at top. The caps are 12 inches in diameter, turned from solid blocks of marble. The crown cap, or molding, running full length of the case at the top, is 2 inches thick and is connected with hand-carved marble brackets, giving rich canopy effect. All marble is secured with nickel-plated brass screws to a wood frame, which is furnished in sections. The wood frame is rabbeted for large mirrors, the marble is rabbeted with felt, leaving no cracks to catch dirt. The large and small shelves are supported by nickel-plated brass brackets. The porcelain enameled lavatories are of the very finest quality, and are made in a new and attractive shape, 27 inches long with 16-inch oval basins. They are fitted with nickel-plated shampoo and basin cocks, with supply and shut-off valves and air chambers, waste and vent. The beveled French mirrors are 44x6 and 28x4 inches. One of our No. 40 exclusive design art towel urns and one No. 166 shaving paper urn to match, as shown, furnished with each section.

No. 186 Sanitary Mirror Case

The canopy top of this elegant case is made of well-figured quarter-sawn white oak, golden finish. Supported at ends by columns surmounted with richly carved caps. Note the half round colored art glass globes—they are supported on brackets, and can be illuminated at night with electric lights. The bevelled French mirrors are 6x64 and 12x54 inches. The wainscoting, base, shelves on work cabinets, and 5-inch shelves between them, are Italian marble. The sides of work cabinets exposed to lavatories are covered with Italian marble to protect them from splashing water. The lavatories are porcelain enamel, 27 inches long with 15-inch oval basins. They are fitted with nickel-plated basin and shampoo cocks with indexed china handles, shampoo hose and sprinklers, nickel-plated supplies with shut-off valves and wastes with vents. One of our No. 32 exclusive design art towel urns and one No. 160 shaving paper urn, as shown, furnished with each section.

No. 202 Sanitary Mirror Case

This case is plain and simple in its lines, yet very pleasing and attractive in its appearance, and is thoroughly sanitary in its style of construction. The mirror frames and work cabinets are made of richly figured quarter-sawn white oak, golden finish. The panels in each end and at top of the frames are white glass. The heveled French mirrors are 54x60 inches, connected with brass strips. The wainscoting, sides of work cabinets, shelves on work cabinets, and 5-inch shelves extending between them, are Italian marble. The lavatories are porcelain enameled, 27 inches long with 15-inch oval basin. They are fitted with nickel plated basin and shampoo cucks, with indored china handles, shampoo hose and sprinkler, nickel-plated supplies with shutoff valves and air chamber, and wastes with vents. One of our No. 37 exclusive design white art towel urns and one No. 165 shaving paper urn to match, as shown, furnished with each section.

No. 204 Sanitary Mirror Case

We present this case to our customers in response to many calls we have had for a fixture of this type. It is plain but very substantial. The finish is white enamel of a high grade. The beveled French mirror plates are longer than usual, 44x86 inches, with 5-inch connecting strips. The cabinets are fitted with Yale locks and white opal drawer pulls. Italian marble shelf and base. The top of this case being exactly the same length as No. 167, shown on page 45, can be used if desired on the base of No. 167 by white enameling work stands, and can be so furnished at regular price of the No. 167 case.

2 Chair case; length, 10 ft. 7 $\frac{3}{4}$ in.; height, 8 ft. 7 $\frac{1}{2}$ in. Price, \$185.00
3 Chair case; length, 15 ft. 8 in.; height, 8 ft. 7 $\frac{1}{2}$ in. " 272.00
4 Chair case; length, 20 ft. 8 $\frac{1}{4}$ in.; height, 8 ft. 7 $\frac{1}{2}$ in. Price, \$361.00
5 Chair case; length, 25 ft. 8 $\frac{1}{2}$ in.; height, 8 ft. 7 $\frac{1}{2}$ in. " 449.00

Towel urns and shaving paper urns extra. For selection see pp. 106-110.

No. 167 Sanitary Mirror Case

A fixture that has proven very popular with owners of high-class barber shops. Beveled French mirrors, 44x56 and 5x44 inches. This gives full 5-foot spacing between centers of chairs and allows ample room for lavatories and workstands. Fitted with first quality porcelain enameled lavatories, made in one piece, 27 inches long, with 15-inch oval basins. They are equipped with nickel-plated cocks, valves and air chamber, supplies with shut-off, wastes with vents, shampoo hose and sprayer. The entire lower part, 42 inches above the floor, is made of Italian marble. The frames and workstands are made of quarter-sawn white oak in golden finish. Italian marble tops on workstands, with a slab 5 inches wide between workstands, making a continuous marble shelf. Yale locks, polished brass hardware.

2 Chair case; length, 10 ft. 7 in.; height, 8 ft. 6 in.....	\$320.00	5 Chair case; length, 25 ft. 7 in.; height, 8 ft. 6 in.....	755.00

Choice Lumber

COMES from the best part of the log. Great care is required in properly quarter-sawing the log to produce fine figure, nature's designing that human hand cannot equal. It lends a beauty and sparkle to flat surfaces that is always pleasing and attractive.

Inferior lumber lacks figure and brilliancy and requires much unsanitary, hard-to-keep-clean carving to make it presentable.

Well Seasoned

lumber only is used in manufacturing *Koken* Furniture.

That means every stick must be piled for at least three years in the *Koken* yards before it is worked up, so as to avoid all possible chance of warping or cracking.

Over a million feet of choice selected lumber is at all times to be found in the *Koken* yards going through this best method of preparation.

Ask to see it when you visit our plant.

Carefully Manufactured

Means first-class Cabinet Makers, using properly seasoned lumber in a manner that will insure tight joints, panels well framed in, easy working, dove-tailed drawers, closely fitted doors, clean-cut carving, smooth, even surfaces, the latter being absolutely necessary that the work may be

Correctly Finished

This implies that first the pores of the wood must be well and properly filled; then follows the application of the proper number of coats of high-grade varnishes, allowed ample time to harden before being rubbed down and polished by hand. That is the *Koken* way of doing it. It gives brilliancy—is permanent—easily cared for—and quickly restored with soap and water.

It is the application of these fundamental principles in manufacturing that

Makes Highest Quality Furniture

Furniture that represents the greatest possible value for the money you pay—that gives you the service you have a right to expect—that satisfies you so completely that the recollection of its splendid quality remains long after the price is forgotten.

We illustrate on this page six different Finishes that we are prepared to furnish:

No. 1—Quarter-sawn Gum—Circassian Walnut finish.

No. 2—Genuine Mahogany, finished dark.

No. 3—Quarter-sawn white oak. Green finish.

No. 4—Quarter-sawn white oak. Early English finish.

No. 5—Quarter-sawn white oak. Golden finish.

No. 6—Quarter-sawn white oak. Natural finish.

No. 77—Pedestal Base Pole. Porcelain enameled. Same as No. 76 with electric motor mechanism. Red, white and blue flasher. Price. \$85.00

No. 76

Koken's Revolving Poles combine elegance of stately design and beautiful fresh coloring with life-long durability. The iron porcelain enameled construction is not affected by wind or climatic changes, and imparts an air of sanitary beauty impossible of attainment in a painted pole. The brilliant rich and harmonious colors are fired in the enamel and will not fade, wear off, nor wash out. The special spring motor which revolves the striped cylinder is of a new improved and efficient pattern which is reliable and strong. It maintains a regulated rate of speed—revolves all day on one winding—costs nothing to operate. The spring motor poles are wired for electricity and may be illuminated at night. When lighted can be seen for many blocks. All designs carry a 12-inch Opal Glass Globe, which diffuses the light evenly.

Nos. 76 and 81 Pedestal Base Poles can be furnished if desired with baked enamel base instead of porcelain enamel at \$60.00 each.
Nos. 73, 74, 77, 79 and 82 Poles can be furnished if desired without red, white and blue flasher at a reduction of \$5.00

No. 78

No. 78—Pedestal Base Pole. Porcelain enameled. Spring motor mechanism. Electric lighted. Height 95 inches. Diameter of base 14 inches. Price. \$65.00

No. 79—Pedestal Base Pole. Porcelain enameled. Same as No. 78 with electric motor mechanism. Red, white and blue flasher. Price. \$80.00

The electric poles are operated by an electric motor which is thoroughly practical. The red, white and blue flasher is a new feature, the value of which can readily be appreciated. It is run by the motor and mechanism whose simplicity of design insures continuous service without trouble. It runs for less than 15 cents per month. The revolving cylinder is made of specially treated translucent material which is lithographed with large 4-inch stripes of beautiful permanent colors which are guaranteed not to fade. These poles are effective advertisers, and will add prestige to any shop. The iron porcelain enameled pedestal base poles are the first of their kind ever produced; and for striking beauty, artistic attractiveness, strength and indestructibility they are unrivaled

No. 17 Shoe Shining Stand

Will fit in any corner. Is only 23 inches wide, 32 inches long. Made of quarter-sawn white oak, golden finish. Platform covered with sheet brass. Space underneath for brushes and supplies. Foot-rest brackets japanned.

Price, as shown..... \$15.00

Price, less chair..... 13.00

A new feature for shoe shiners. No space wasted. The maximum amount of room required is but 35 inches wide over all, permitting boot black parlor to occupy a narrow room where a wider stand would make it prohibitive.

The sectional design permits of enlarging stand when an increasing business demands it by adding either two or three-chair sections.

This stand is equipped with folding theatre chairs (more fully described on page 74) and No. 55A japanned pedestal foot rests that can be removed from the socket both features making it very convenient for the customer when getting on and off the stand.

Made of quarter-sawn white oak, golden finish. The platforms are covered with sheet brass and oil cloth.

\$32.50
\$20.00

No. 460A Portable Washstand.

Sanitary. With hot-water attachment. This consists of a nickel-plated cylinder in which the water flows over a copper cone. An alcohol lamp sends an intense blaze up under this cone and heats the water in from one to three minutes. Use denatured alcohol only, it gives the best results. Thus by striking a match and turning a faucet you get running hot water. The water tank, holding 4½ gallons, is encased in a quartersawn oak cabinet, or finished in white enamel as desired, fitted with a French mirror, 12x16 inches. The basin is porcelain enameled, suspended on nickel-plated hinged brackets. The pedestal is a tank which catches waste water from the basin, and can be easily removed and emptied. The pipe carrying the water from the tank to the basin, the faucet, towel rack, soap and tumbler holders, are nickel-plated. A very convenient washstand, tasty in appearance and easily set up. Height, 5 feet 10 inches.

No. 437 Portable Washstand.

A neat washstand, to be used where waterworks are not handy. Made of quartersawn white oak, golden finish. Tank in top lined with galvanized iron. Tennessee marble top and back, 13-inch overflow basin, nickel-plated Fuller basin cock, chain stay, shampoo sprinkler and hose.

Lamps Nos. 1 and 2 are of simple construction. They are made of brass, triple plated. The valves are heavy and extremely durable. The burner unscrews below valve and gas tip, thus no loss of mantles when cleaning lamps.

We recommend them as the best lamp of this kind on the market.

No. 1.

Lamp No. 33, also made of brass and triple plated, uses a filter in right arm above the valve. The generation is perfect, insuring a steady and economical light.

The drain plug under burner makes cleaning easy. No troublesome needle points used in this lamp.

No. 2.

No. 33.

The Coleman Hollow Wire Lighting Plants

Illustrated above, are the most serviceable, economical and satisfactory system known for all purpose lighting.

Every part of these plants is made of the best material. Fixtures are heavy brass, triple nickel plated. Tanks for containing the fuel are tested to many times their running pressure, insuring absolute safety. The gasoline is conveyed from tank to fixtures through small flexible copper hollow wire. At the fixtures the gasoline is generated into gas, properly mixed with air, and burned the same as ordinary gas.

Styles of fixtures listed are ones especially suitable for barber shops. The No. 1 lamp uses a large inverted rag mantle and gives by actual test 300 candle power light. The No. 2 lamp uses two large inverted rag mantles, and is equipped with a steel white enameled shade, and gives 600 candle power light. The No. 33 lamp uses No. 44 upright mantles, and gives a powerful 600 candle power light.

Each plant is shipped complete, with style of fixtures selected, wire tubing cut in sections, with connections brazed, and a tee with one end capped, enabling you to add more lamps at any time, by ordering fixtures and number of feet of wire required, making it easy and doing away with the need of a mechanic.

The best service is obtained by using one style of lamp on a system, rather than having one of each kind. Therefore, plants listed in different sizes contain fixtures all of one type. Each plant is carefully tested, and plain directions for operating and installing are included.

Complete lighting plants consist of: Three-gallon gasoline tank, pump, funnel, wrench, enough hollow wire and connections for each size plant, with style and number of fixtures shown. Always order by number and state just how many lamps are wanted.

Head Rests, Shaving Paper and Holders

Real Comfort to the Head—A Triumph in Barber Chair Attachments.

No. 500 Cushion Head Rest

Made of aluminum; very light, strong and durable; has no joints to wear or work loose under severe treatment given head rests by modern massaging; flexible coil springs are used, covered with soft leather.

The paper is carried through the rollers and easily threaded through the same. No noise

when adjusting the rest; no ratchet nor cheap hidden materials. Its construction is in full view.

Price, head rest, with rods as shown, or slats \$6.00

Price, complete, with push pin plate 7.50

No. 500 Push Pin Plate

This plate permits of the lifting out of the head rest without manipulating any screw, pin, lever or other device, and can be attached to any barber chair now fitted with the Wingscrew Plate, by simply taking out the screws and cutting

away a small portion of the wood of the back of the chair. State whether for rods or slat.

Price, push pin plate only \$2.00

No. 524 Koken's Sancross Head Rest Paper

A STRICTLY sanitary paper for head rests. Made of the best grade water finished pearl white paper. If you use this paper instead of towels as covering for head rests, you will find it more economical and sanitary. It gives a clean and sanitary covering for every customer and at the same time serves as shaving paper. Each roll contains enough for 100 shaves. The upper side of the

paper on which the customer's head rests is smooth, the lower side is rough, making an excellent paper for wiping the lather off of the razor. The only paper that combines these features. If you want the best, "Buy Sancross Paper."

No. 3

AUTOMATIC STERILIZER

This is the latest and most practical and convenient sterilizer made. It is entirely automatic. Fill the pump up every two or three weeks and it will discharge a little spray in sterilizer each time the door is closed thereby keeping the same amount of sterilizing fluid in the case. Other sterilizers depend upon a blotter saturated with a sterilizing fluid to sterilize the instruments which loses its strength when the door is opened often. Costs about 3 cents a week to run. White enameled throughout. Low in price, too. Height 15 inches, width 13 $\frac{1}{4}$ inches, depth 12 $\frac{1}{4}$ inches.

Price.....\$10.00

No. 4. Height 12 inches, width 13 $\frac{1}{4}$ in., depth 12 $\frac{1}{4}$ in. \$9.50

Price, with gas burner.....	\$75.00
Price, with gasoline burner.....	\$0.00

No. 61

No. 73 Ice Towel Humidor

¶ A piece of furniture that adds the master touch to shop equipment and quality service. Indispensable to the complete equipment of a first-class barber shop.

¶ Snow white opalite glass exterior, with nickel-plated brass trimmings. White enameled finish interior.

¶ Absolutely air tight with separate compartments for ice and towels. The construction of this humidor is the same as the finest refrigerators, insuring a minimum consumption of ice.

¶ Has water-cooling arrangement with inverted glass bottle on top, faucet and glass holder on side.

¶ The ice rests upon pipes through which the water passes, furnishing ice water at all times for your patrons.

No. 73

No. 73 Ice Towel Humidor

¶ It is mounted on heavy nickel-plated metal legs with nickel-plated brass rack for surplus towels.

¶ Height, including bottle, 74 inches; width, 22 inches; depth, 20½ inches.

¶ Dimensions of ice chamber: width, 15½ inches; depth, 14 inches; height, 13 inches.

¶ Towel compartment: width, 15½ inches; depth, 14 inches; height, 14 inches. The finest humidor made.

¶ This humidor can be equipped with drain pipe through floor if desired without extra cost.

Price, as shown.....\$160.00

No. 74 Ice Towel Humidor

A practical humidor. Made of steel, porcelain enameled inside and out. Light, durable and inexpensive. Absolutely sanitary. It is constructed to prevent waste of ice and insures cold towels at all times. Has heavy lid with white glass knobs; legs have rubber feet. Has a cool, professional, sanitary appearance. Surplus water is drained into a porcelain enameled bucket. Height, 36 inches; diameter, 16 inches. It can be equipped with drain pipe through floor if desired, without extra cost.

Price, as shown.....\$17.50

The Allspaw Sterilizer

Cabinet made of heavy nickelized copper, with razor sterilizing compartment on one side. Individual drawers for each barber. No burning of hands by wringing of hot, wet towels. Makes a dry steam towel (thoroughly sterilized) for each customer. Supplies plenty of hot water for shaves, etc. It is mounted on a white enameled iron stand. A desirable addition to any shop.

Cold Water Tanks Made of Galvanized Iron

These tanks are made of heavy material and are strong by reason of their circular form and on account of the beaded
construction. The top has a heavy wrought iron band surrounding it and securely attached to it. A heavy wooden bottom
is secured under it to give it stiffness at that point.

The Jiffy Water Heater.

The Jiffy Water Heater is made to use natural or artificial gas. It can be attached to any size water tank from 30 to 100 gallons capacity and will supply enough hot water for a shop with as many as ten to twelve chairs and several bath rooms. The cost to operate it is very small considering the excellent service it gives.

The "Jiffy" is easy to install, takes up but little space, has a direct passage, hence will not leak or clog up in the water column. Its hot blast "Bunsen Burner" is carbon proof and will not carbonize. It is guaranteed perfect in material and mechanical construction, and when properly installed, according to printed instructions furnished with each heater, it works like a beaver.

In ordering be sure to state if for natural or artificial gas.

Price with outside jacket of planished iron..... each, \$7.00

Price with outside jacket of blue or white enamel..... " 0.00

Ideal Water Heater.

MAYWOOD WATER HEATERS

These heaters produce the largest amount of heat at the least cost. The heating parts are made of cast iron and are therefore durable.

Warning: Never expect from a \$16.00 heater with small expense for gas as much as you would from a \$200 steam plant. These heaters will give good satisfaction when used as noted, but will not permit of indiscriminate waste of hot water. All heaters are tested at 200 pounds pressure.

The case can be raised to clean and inspect parts. Flue connection not needed, but may be made.

Required floor space for four-gallon heater, 10x16 inches. Shipping weight, 50 pounds.

4⁹ These heaters are furnished for natural or artificial gas or gasoline, as desired, at same price. Notice—When ordering always state the kind of burner wanted.

Gas Burners.

No. 213—24-gallon tank; Height, 16 in.

No. 214—Heater with hima flame keroseen oil burners may be had at a flat price of \$2.00 extra.

DULUTH WATER HEATERS

For Gas.

Heavy galvanized boiler, circulating disc, powerful burner; auxiliary burner attached may be adjusted to heat one-half plot to one gallon water per minute as desired. Fuel connection may be absolutely necessary, and better results may be had by putting same on.

For Gasoline.

Without doubt the strongest, most efficient gasoline water heater ever put on the market, combining strength, simplicity and economy.

A two-burner heater will heat about 20 gallons per hour, a three-burner about 40 gallons, and a four-burner about 60 gallons—bath temperature. One or all the burners can be used, as desired.

Gasoline heaters are furnished with one gallon gasoline tank. A larger tank can be substituted outside the building at any distance up to the burner. The tank is held in place by the burner itself.

For better results obtainable.

KOKEN'S REGAL HAIR DRYER

SCIENTIFICALLY designed, it fulfills every requirement the profession exacts.

¶ The large volume of either hot or cold air which can be thrown by this machine makes it a pleasure to operate.

¶ A heavy head of hair can be dried in from three to five minutes.

¶ As the air is heated entirely by electricity, there is no gas odor present to offend the customer.

¶ The air tube is of telescopic design and can be adjusted from fourteen to twenty-four inches in length.

¶ The motor is swivel-mounted on a ball-bearing pedestal, which permits the operator to direct the current of air in any direction with the utmost ease.

¶ Entire machine is made of white metal, heavily nickel-plated, which makes it a thoroughly sanitary and beautiful shop fixture.

¶ The hundreds of satisfied users of Koken's Regal Hair Dryer demonstrate its superiority.

When you order state whether your current is direct or alternating. Also give voltage and number of alternations.

Koken's Heather Bloom TOILET WATER

Its charming, wholesome odor of sweet, dewy Scotch Heather makes it preferred by the particular patron.

Distinctively Different.

Per dozen, 8-ounce bottles.....\$5.00
Per gallon.....\$4.50 Per half gallon.. 2.35
Per quart..... 1.25 Per pint..... 0.70

An elegant finish for a shave. It soothes, cools, and imparts a glow of perfect health to the skin.

Decidedly Delightful.

OPAL-OLIVE SHAMPOO

Establishes a new standard of Shampoo excellence. Thick of body and made from a pure vegetable oil base. It effectively removes all dirt and surfc from the scalp and leaves the hair soft and silky. It will not bleach the finest hair.

Per dozen, 8-ounce bottles	\$3.25
Per dozen, 4-ounce bottles	2.00
Per gallon	\$3.00
Per quart	0.90
Per half gallon	1.60
Per pint	0.50

PANAMA BALSAM

The soothing, healing and astringent properties of genuine balsam combined with other ingredients of acknowledged efficacy produces a face lotion of spicy odor unsurpassed for after-shaving use.

It prevents infection and allays irritation. Freshly fragrant.

Per dozen, 8-ounce bottles	\$3.00
Per dozen, 4-ounce bottles	1.75
Per gallon	\$2.50
Per quart	0.75
Per half gallon	1.35
Per pint	0.45

CREME SNOW

Experts at home and abroad consider this one of the best vanishing cremes ever produced.

A pure snow white creme which cools and soothes tender skin and alleviates sunburn.

Per 2 oz. jar	15c.
Per 4 oz. jar	25c.
Per 8 oz. jar	40c.
Per 16 oz. jar	75c.

RUBY TALCUM POWDER

This Powder
put up under
our own brand.

THIS scientific compound is made of the purest ingredients, each in itself so effective as to practically amount to a specific for remedying scalp and hair ills.

Safe, Sure and Certain in Ability to Get Results.

QWe recommend the exclusive use of Acroline by those who desire to build up a reputation as a specialist in treating extreme and obstinate cases of dandruff, scurf and other scalp ailments.

QCareful analysis by chemists of unquestioned ability proves Acroline to carry more properties of greater strength for the eradicating of dandruff than any leading tonic on the market at this time.

*Testimonials
from constant
users in the bar-
bering and hair-
dressing profes-
sion endorse its
merits.*

Fitch's Quinine Hair Tonic

A Quinine Tonic possessing besides all of the virtues of a real Quinine Tonic several features that are distinctly original with us. The odor is a true rose bouquet differing entirely from the time worn French types. The color is non-staining and the most attractive shade of any preparation now on the stand. A tonic which reflects quality from every angle and one that the trade is welcoming on all sides.

Each 1.75

Blue Steel Razor

The Most Popular Brand

This fine razor is manufactured of the highest grade blue steel in one of the best equipped factories in Germany. The gentle curve of the back is suggestive of great keenness, and makes your customer confident of an easy shave beforehand. Great care is taken to give the razor an even temper—neither too hard nor too soft. It will not crumble on a hard beard, neither is it too soft to hold up under long continued work. It is made of the best blue steel. A trial will at once place it in the ranks of your favorite brands.

In black oval handle each, \$ 2.00

Owing to scarcity of cutlery we are obliged to discontinue changing Razors, and all Razors sent out are sealed as we receive them from the factory

We have several new brands of Razors ordered but may not receive them until the European trouble is over. Send your order in for our latest brand and we will send you a good one.

Owing to war conditions the manufacturers have raised the price on these razors. We are obliged to charge 25c more for each razor listed on these two pages.

ROYAL BLUE RAZOR—The special grind and shape are important features. A resisting steel is used in producing the blade to fit it for any hone, wet or dry. The blade is held in a beautiful Royal Blue Galalith Handle; the finish and balance are perfect.

Our original 9/16 and 10/16 sizes. Each \$2.00

REPEAT RAZOR—King of all "Squirrel" razors. Will stand the wear and tear of the hardest usage. Full concaved and has the smooth, round end on the back. Built strong in every section, yet light and well balanced. Not an ax but a high-grade tool.

Sizes 9/16, 10/16, 11/16. Each \$2.00

AT-LAST RAZOR—A straight blade which lays flat on the hone. Round edge of the back won't scratch strop. A thin, stiff blade that holds an edge. Takes a true edge from heel to point. Not an awkward, clumsy razor, but a fine, high-grade tool.

Sizes 9/16, 10/16, 11/16. Each \$1.50

ECHO RAZOR—Built for speed and service. Shape is such as to permit of rapid handling on the face. Neat, handy and as clean cut as a racer. Not a "neck razor" but a tool built for your "particular" customers. Highest quality in both material, proportions and workmanship.

Sizes 9/16, 10/16, 11/16. Each \$1.50

KOKEN KNIGHT RAZOR—Scientifically built. Designed by thirty-six successful barbers who combined the best and most practical features. The K. K. Razor is the result of their unanimous verdict. Users declare it a rare gem of razor perfection in such details as steel grind, hang, etc. A \$3.00 razor at half price. Sizes 9/16, 10/16, 11/16. Each.....\$1.50

KOKEN'S No. 20 RAZOR—The twentieth century razor sensation. The proper razor for both the finished artist and the novice. The undisputed monarch of all "hard whisker" razors. Grace and matchless workmanship in both grind and temper. A choice and reliable tool which solves the secret of pleasant shaving. Sizes 9/16, 10/16, 11/16. Each.....\$1.75

SANTAS RAZOR—A marvel of practical design and construction. The shank will fit any thumb; the steel will hold an edge; and the shape is "justright." A razor that can "come back," no matter how much used. This tool will convince you that they make razors better today than ever. Takes a "fast" edge which has a soft, mellow cut. Sizes 9/16, 10/16, 11/16. Each.....\$1.75

ARCUS RAZOR—A convenient shape which rests in the hand with perfect ease. Turns the "Saturday grind" into a pleasure. Its faultless grind, graceful shape, and fine balance, make for it everlasting friends and users. No culls—each and every one perfect. Works on any hone or strop. Sizes 9/16, 10/16, 11/16. Each.....\$2.00

Reducing large razors to small ones, extra, 10c to 15c.

Do not nick or hack the edges of tools that are intended to be reduced in size.

CAUTION: In sending us packages by mail or express, write your name and address plainly on the outside of package. If by mail, do not include any other writing, or you will be obliged to pay letter postage. We often receive packages of razors and other tools not marked, and which we cannot identify, because no names are on or in the packages. If we had the slightest clue to the owners we would write for information. You will therefore see the importance of observing the above caution.

Le Bel Cupid Manicurists' Requisites

Every requirement of the skilled professional manicurist is met by the Le Bel Cupid line. Experienced chemists have combined their knowledge in these strictly scientific preparations.

The action of each is so positive and quick, the operator is enabled to do more work, thus earn more at the same time, by use of Le Bel Cupid preparations.

The trade is absolutely pleased and permanent customers result.

Each is exquisitely perfumed, absolutely pure, and proves a splendid seller in a retail way to the trade.

We guarantee Le Bel Cupid line. Prove its merits by a trial order. Moderate in cost. Sent postpaid on receipt of price of single package.

Nail Creme

Prevents splitting and cracking of nails. Much used.

Removene

A guaranteed hair remover. Is harmless. Does not irritate; produces quick results.

Rose

Nail Tint

The only tint prepared especially for tinting the finger nails. Built to meet the exacting demand of the professional manicurist.

Powdered Nail Bleach

Compounded by expert chemists especially for professional manicurists who cater to exacting trade.

Nail Bleach Liquid

A stain remover. Preferred by professional manicurists. Guaranteed free from oxalic and other injurious acids. A superior bleach. We recommend it.

Blushine

A pure cosmetic for tinting the cheeks and lips, giving them a healthy glow, delicate as nature itself. Preserves the skin and relieves chapped conditions. Compounded especially for the exacting cosmetician and exclusive trade.

Nail Salve

A paste enamel. Produces a lasting polish and preserves the nails.

Nail Shine Powder

A clean, convenient and economical polish; free from all injurious substances. Gives a brilliant polish.

Nail Enamel Cake

Produces an unequalled bright polish. Contains no acids, pumice or other commonly used and injurious ingredients.

Cuti Ease

A scientific remedy for brittle finger nails, hang nails and all abnormal conditions of the cuticle. Highly antiseptic, cooling, soothing and harmless.

Le Bel Cupid Emery Boards

Two Sizes

Unequalled in lasting cutting surface. Not too stiff; just flexible enough. The best we have ever offered. We guarantee them.

White Nail Tip

For application underneath and around the nails, producing a white effect much desired. A delicately perfumed antiseptic.

Manicure Tables and Chairs

Koken's

No. 202 Manicure Table

The first porcelain-enamelled iron manicure table ever built. The very latest in design, at half the former price. The permanent snow white finish is the same as that of high-grade lavatories or bath tubs.

It is easy to clean, always sanitary and retains an always new appearance.

Has received unqualified approbation everywhere installed.

Perfectly proportioned for professional operators.

An asset to any establishment, however large, however small.

Specifications

Length, 32 in.; width, 18 in. Basin, 6 in. wide, 4 in. deep. Height, 30 in. Supply pipe connections, $\frac{1}{2}$ in.

Fitted with basin and connected with running hot and cold water, it is the most practical table money can buy.

Comes to you with all valves, nickel-plated pipes, trap, porcelain-enamelled wall brackets and leg, complete.

Price \$50.00

edge work. 7-inch.....each, \$0.25

The New Idea in Barbers' Combs

¶ Strictly hand made, of selected first grade horn stock.

¶ The quill backs of these combs are oval, leaving the extreme edge very thin, centering the strength where the teeth start, thus preventing easy breakage.

¶ Rounded, tapering teeth of polished finish take up the hair easily and make the cutting of hair more perfect.

¶ All numbers are built on same line, differing only in size and pattern.

¶ Each unexcelled for feather-edging.

IMPORTED HAIR BRUSHES

SUPERIOR PATTERNS that are DIFFERENT

Made of
Lasting Materials,
which guarantees
double the wear
and service obtained
from the ordinary brush

Note Their Important Features

First—The open backs make them easy to clean and sterilize by simply holding under running hot water.

Second—Every brush is hand drawn. Bristles guaranteed not to come out.

Third—Bristle stock is the finest imported penetrating Russian hog. Money cannot buy better.

Fourth—The wood blocks are especially selected and chemically treated. Guaranteed to stand any kind of sterilizing without warping or cracking.

Fifth—A shape for every man. Each just right.

These five points make the patterns shown on this page the **best wearing sanitary hair brush** on the market.

No. 606—A narrow back. Very popular with the trade. Five rows bristles. Size, $1\frac{1}{4} \times 9$ incheseach, \$1.00

Wyandotte Detergent

gives you what you have long desired—the services of a combined cleaner and a mopping powder.

BARBERS who use *Wyandotte Detergent* consider themselves particularly fortunate in being able to obtain a product that so fully and competently meets their many needs as does *Wyandotte Detergent*. In the barber shop a variety of different kinds of surfaces need to be kept clean, such as bath tubs, wash bowls, marble and tile floors, enameled and painted walls, windows, faucets, etc. The ability of *Wyandotte Detergent* to clean thoroughly and to clean safely these various surfaces is unquestioned by anyone who has ever given it an opportunity to demonstrate its unusual cleansing powers.

Wyandotte Detergent removes the grime from wash bowls, and the stubborn deposits from floors with astonishing ease, but it does it without scratching or wearing the surface. It cleans enameled walls clean, but it does not bring about discolorations. As a mopping powder *Wyandotte Detergent* is unexcelled. To enumerate its many uses is quite impossible here, but we positively guarantee *Wyandotte Detergent* to do and to be all that is claimed for it.

You owe it to yourself to give *Wyandotte Detergent* a trial. May we not expect your order? We can supply you as follows:

Toupees and Wigs For Gentlemen

Gauze Toupee Foundation

(H)UR ventilated toupees are made of the finest material and workmanship, in sanitary shops, by skilled artisans. We guarantee a perfect fit where directions "How to measure and order" are carefully followed.

How to Measure for a Toupee

Cut a piece of paper the exact size and shape of the bald spot, also the measure around the head, and mention which side the parting is on. Also state size hat worn. State in your instructions how you desire the hair, whether straight or curly, long or short.

Terms

Toupees and wigs are sold only for cash in full with order. In turn we guarantee absolute satisfaction to every purchaser.

KOKEN'S WIGS for gentlemen are made of finest quality genuine natural hair. The workmanship gives them a perfectly natural effect. As a result our patrons are always pleased.

¶ Prices cover all shades.

How to Order Toupees and Wigs

Send sample of hair cut from the head. Select exact shade you want matched and pin to letter. When ordering a wig, mention style of wig desired. State whether the parting is to be on the left or right side, and whether you desire the wig of curly or straight hair.

¶ We are headquarters for wigs and all hair goods required by ladies.
